-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 04 June 2007.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### Disposition of Claims

- 4) ☐ Claim(s) 3-7, 10, 13-15, 17, 20, 23-29 and 34-40 is/are pending in the application.
- 4a) Of the above claim(s) \_\_\_\_\_ is/are withdrawn from consideration.
- 5) ☐ Claim(s) 35, 39 and 40 is/are allowed.
- 6) ☒ Claim(s) 3-7, 10, 13-15, 17, 20, 23-30, 34, 36-38 and 40 is/are rejected.
- 7) ☐ Claim(s) \_\_\_\_\_ is/are objected to.
- 8) ☐ Claim(s) \_\_\_\_\_ are subject to restriction and/or election requirement.

### Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☒ The drawing(s) filed on 04 June 2007 is/are: a) ☐ accepted or b) ☒ objected to by the Examiner.  
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).  
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

### Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some \* c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
2. ☐ Certified copies of the priority documents have been received in Application No. \_\_\_\_\_.
3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- \* See the attached detailed Office action for a list of the certified copies not received.

### Attachment(s)

- 1) ☐ Notice of References Cited (PTO-892)
- 2) ☐ Notice of Draftsperson's Patent Drawing Review (PTO-948)

## **DETAILED ACTION**

### ***Continued Examination Under 37 CFR 1.114***

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on June 4, 2007 has been entered.

### ***Drawings***

The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they include the following reference character(s) not mentioned in the description: reference character 16a is not mentioned in the specification. Corrected drawing sheets in compliance with 37 CFR 1.121(d), or amendment to the specification to add the reference character(s) in the description in compliance with 37 CFR 1.121(b) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and

Art Unit: 3761

informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 3 – 5, 7, 10, 13 – 15, 17, 20 and 23– 29, 34 and 36 – 38 are rejected under 35 U.S.C. 102(b) as being anticipated by Robinson (US 5,330,456).

Regarding claims 3 – 4, see col. 4, lines 6 – 33.

As to claim 5, Robinson discloses an absorbent article consisting of polypropylene fibers as set forth in col. 5, lines 15 – 19.

As to claim 7, Robinson discloses an article comprising a liquid pervious, hydrophobic material layer arranged between the absorbent body and the hydrophilic absorbent material as set forth in col. 5, lines 35 – 40 and in col. 4, lines 16 – 23.

With reference to claim 10, Robinson discloses an absorbent article wherein the hydrophobic material is constituted of a hydrophilic material which has been rendered hydrophobic as set forth in col. 5, lines 35 – 40.

As to claims 13 and 14 – 15, Robinson discloses an absorbent article comprising a shaping member as claimed with compressions as shown in figure 2 represented by

Art Unit: 3761

the sloped sides of member 12. The insert is considered as layer 14, 16 or 32 as shown in figure 4.

With reference to claims 17 and 20, Robinson discloses an absorbent article wherein the wetting region covers at least part of the absorbent body as set forth in figure 6.

Regarding claims 23 – 26, see col. 4, line 36.

As to claims 27 – 29, the examiner considers the area contacted by the wetting region as constituting the mucous membranes of the user.

With respect to claims 34 and 36 – 38, Robinson discloses an absorbent article and method thereof comprising a liquid-pervious user-facing first side (102) including a first portion consisting of a hydrophobic material, and a second portion forming a wetting region adapted to be disposed adjacent the mucous membranes of the user, to define the region of the first side to be wetted by body fluid emitted to the article, a second side opposite the first side and including a liquid-impervious surface layer (104) and an absorbent body (10) disposed between the first and second sides (figure 6), wherein the second portion consists of hydrophilic absorbent material adapted to retain moisture, and an outer edge of the second portion being bordered by the hydrophobic material of the first portion (col. 5, lines 37 – 40) and wherein an extent of the wetting region is smaller than an extent of the absorbent body as set forth in figure 6.

***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 6 is rejected under 35 U.S.C. 103(a) as being unpatentable over Robinson (US 5,330,456).

The difference between Robinson and claim 6 is the provision that the hydrophobic material is polyethylene foam.

Robinson teaches hydrophobic material as set forth in col. 5, lines 14 – 19.

It would have been obvious to one of ordinary skill in the art to substitute one type of hydrophobic material for another, absent a teaching of any unexpected result, since the general condition of the claim has been taught by the prior art and substitution of one type of hydrophobic material for another is within the level of ordinary skill in the art.

***Allowable Subject Matter***

Claims 35 and 39 – 40 are allowed.

***Response to Arguments***

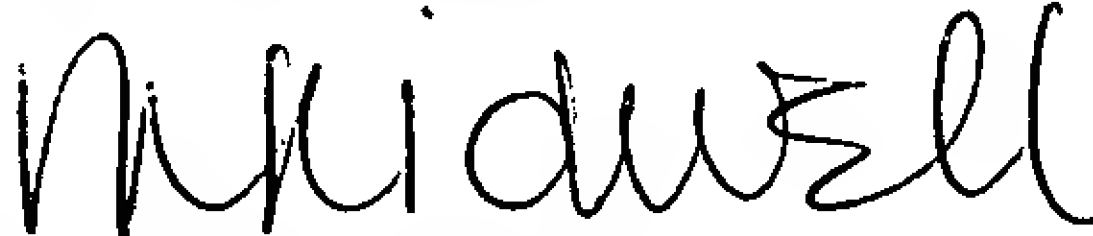

Applicant's arguments filed June 4, 2007 have been fully considered but they are not persuasive.

With respect to the applicant's arguments that Robinson does not teach a hydrophilic topsheet, the examiner disagrees. Col. 5, lines 14 – 19 specifically states that the lateral central portion of the topsheet is treated to be hydrophilic.
